aeoon
TECHNOLOGIES

Enter the world of industrial dtg printing

Our Aeoon Products

The Aeoon products are specifically made to meet your business needs. Every series is customizable to adapt to your growing business. Additionally, they are easy to use and the fastest on the market, delivering pin-sharp results. The versatile printers grant you a maximum on flexibility.

The Aeoon Compact Series

Our Aeoon Compact Series was designed to include the best of direct to garment printing within a slim shape. This machine meets the requirements of businesses with limited space availability. The Aeoon Compact Series can be equipped with 8 printheads, including CMYK and white

printheads. You can reach printing speeds of up to 950 t-shirts per hour by printing on two pallets.

The Aeoon Kyo Series

The Aeoon Kyo Series 12/3 provides digital textile production on an industrial scale. This series is equipped with 12 printheads, 4 CMYK and 8 white printheads. Print pin-sharp 600 dpi digital prints on three pallets. Additionally, you can combine the Kyo Series with our screenprinting unit. Make use of the advantages of a screenprinting and a dtg textile printing machine. You can choose between digital printing, screen printing or a combination of both – everything is possible!
