

To expand our motivated apprentice team, we are looking for entry in September 2019 apprentices in the field of mechatronics!

Are you interested in electronics and mechanics? Independent, accurate and careful work is yours? You have technical understanding? Then the apprenticeship as mechatronics technician is just right for YOU!

Apprentice in Mechatronics (full time)

Your responsibilities:

- Assembly and electrical wiring of mechatronic systems with subsequent commissioning
- Wiring of pneumatic and electropneumatic systems
- Production and installation of spare parts
- Locate, limit and eliminate faults, defects and faults in systems and machines
- Plan and control work processes, evaluate work results, apply quality management systems

A successful training as a mechatronics technician is your basis for a professional career at aeoon Technologies in the following areas:

- Assembly, installation and maintenance of our digital printing machines
- Quality control
- Worldwide service assignments

Apprenticeship: 3.5 years

Vocational school: 10 weeks block course in Kufstein

Your qualifications:

- Completed school level
- Technical understanding
- Skilled craftsmanship
- High motivation and logical thinking
- Care and teamwork
- High degree of independence and reliability

The monthly apprenticeship compensation in the apprenticeship period (according to collective agreement metal working) amounts since 01.01.2019 gross per month:

1. Year of apprenticeship: € 675,00
2. Year of training: € 850,00
3. Year of apprenticeship: € 1,120.00
4. Year of apprenticeship: € 1,490.00

If you are interested, we would be pleased about your application via E-Mail.
